Request to restrict use of photos or videos of students

The San Ramon Valley Unified School District is proud of the many accomplishments of our students and staff. Often, such accomplishments draw the attention of newspapers, television stations or other media who visit our schools to photograph, film, and/or interview students. In addition, we often use photos of our students and/or student work in district and school publications and on the district and school websites.

We need to know if you **do not** want your child to be photographed, videotaped or interviewed for district/school-related publicity purposes.

Please complete and sign the form below and return it to your child's school ONLY if you do NOT grant permission to the school/district to use photographs or video footage of your child.

Note: This form pertains to images used outside the school campus, and does not pertain to classroom displays or yearbook photos. If you do not want your student to appear in a yearbook, contact the school office. The district and school's website is accessible to all who have access to the Internet. Therefore it is not district practice to post last name, home address or telephone number with any work or photo posted on the web.
