

Country Club Elementary After School Classes 2009

Drawing, Painting & Sculpture – students will learn drawing and painting techniques while producing works about undersea life, outer space, dinosaurs, circus performers and landscapes. Students will also produce a three dimensional sculpture out of foam core.

Watercolor Drawing & Composition – This class is sure to be fun with bright, popping colors, paint application techniques and collage materials. Subjects will include under the ocean, outer space, and many kinds of animals. Students will work at their own pace and create exciting works of art.

Mad Science Presents: The Extraordinary Earth - See how plants turn sunshine and water into food and the air we breathe. Peek beneath the earth's crust and uncover how rocks and gems are formed. Go hunting for dinosaur fossils and make molds of the bones you find. Discover the importance of weather and how tornadoes form. Take home your own potted plant and volcano.
